Subject: Work Plan Review Findings – Gulf Coast Water Authority (GCWA) Drought Contingency Plan (DCP) (Financial Assistance Agreement No. R16AC00114)

Dear Mr. Langford:

The Bureau of Reclamation received a copy of the GCWA revised Detailed Work Plan (Plan) on June 20, 2017. Reclamation has completed its second review under its Drought Response Program pursuant to Reclamation's Drought Response Program Framework. Reclamation has found that the Detailed Work Plan is complete and meets the program requirements.

Please note that the review team suggested that as you move forward with your DCP, it is important to ensure that public communication and outreach is conducted in accordance with a plan and schedule that allows input from a diverse group of stakeholders.

If you have any questions or need clarification, please contact Trent Parish at (512) 899-4157. We thank you again for your submittal and look forward to working with you further on this effort.

Sincerely,

Collins Balcombe
Supervisory Program Coordinator
